

PREVENTION OF VIOLENCE AGAINST CHILDREN

WORKSHOP FOR ADULTS IN DAYCARE FACILITIES

Duration: 2 hours

Price: \$60/workshop (free with the violence prevention workshops programme for children)

Target audience: Any adult working in daycare facility settings who is interested in preventing violence against children.

General objective: To promote adult participation in the prevention of violence against children.

Specific Objectives:

- To inform adults about the issue of violence against children
- To equip adults in the prevention of violence against children
- To equip adults on how to approach a child who discloses a situation of violence

The involvement of adults in the prevention process reinforces messages of prevention, helps with their practical application, and helps to identify children who are victims of violence.

Topics Covered:

- The different types of violence and aggression
- Teaching children to protect themselves
- Stress indicators in children
- Welcoming a child who discloses a situation of violence
- Filing a complaint to the DYP
